CAREER OBJECTIVES

Results-oriented frontend developer specializing in React and responsive design. Proficient in developing and implementing user interfaces, integrating APIs, and collaborating with cross-functional teams. Successfully delivered multiple projects on time and within budget. Seeking a challenging role where I can further develop my skills and contribute to a growing team.

COURSES

Professional Diploma in Web Design & Development   2023-2024

- Front-End Web Development
- HTML5, CSS3, JavaScript (ES6+), React, Next Js, Responsive Design, Cross-Browser Compatibility, Git
- Developed a responsive e-commerce website with product filtering and shopping cart functionality.
- Back-End Web Development with Node.js:
- Node.js, Express.js, MongoDB, RESTful APIs, Authentication, Authorization, Testing (Jest)
- Built a RESTful API for a social media application.

Projects

E-commerce Product Listing Page:

- Developed a responsive product listing page for an e-commerce website, allowing users to browse price, and brand.
- Implemented features such as infinite scrolling, product image zoom, and add-to-cart functionality.
- Technologies Used: HTML, CSS, JavaScript

GitHub Link

API Based Weather Application:

Developed a weather application using HTML CSS JS and ReactJs that leverages a weather API (e.g., Open eatherMap, AccuWeather) to retrieve and display real-time weather data, including temperature, humidity, wind speed, and forecasts.

GitHub Link

Personal Portfolio Website:

Designed and developed a personal portfolio website showcase my skills and projects.
Technologies Used: HTML, CSS, JavaScript React Js Tailwind CSS
